The Ward Meetings.

We have received several communications and statements alleging irregularities and unfairness in the conduct of the Ward Meetings on Tuesday evening. We have declined, and must decline, to publish any such except as advertisements. The newspapers are not the proper forum for the settlement of any differences which may arise in the Wards. But we may and do implore the Whigs of each of the three or four Wards in which there are heart-burnings to remove them at once, by conference and conciliation. This may far easier be done now-to-day or to-morrow-than afterward. Sternness in adherence to principles, mutual concession as to men, eminently befit the Whig party. These will ensure a glorious tri-

WHIG Young MES! it is your turn to-night! You are called to meet This Evening at National Hall to respond to the State Nominations of HENRY CLAY for President, LUTHER BRA-DISH for Governor and GABRIEL FURMAN for Lieutenant Governor, and to 'Push on Your COLUMN!' to the grand conflict of November. New-Yerk, the carly, devoted and steadfast headquarters of Clayism-where HENRY CLAY was first formally nominated by a Mass Convention of the People, must nobly justify and sustain that nomination in the coming contest. Your exertions must secure this, Whig Young Men! Rally in your strength This Evening!

The Great Baylon Convention—The Whigs of Ohio in Council—Menry Cay, John J. Crittenden, Gov. Corwin, Thomas Ewing, &c.

Correspondence of The Tribune. MAD RIVER, Greene Co., Ohio, Sept. 30.

H. GREELEY, Esq: Dear Sir-Toll your friends in New-York and elsewhere that the Whig fire is very hot in Ohio, and that there are no fears but it will be kept up until its fervent heat does its share in making a Clay President.

You will scarcely credit my account, when I state that the great gathering in September, 1340, at Dayton, was fairly outstripped by the Clay Convention at the same place yesterday.

The People were there with their banners unfurled and their principles legibly written thereon. 'A Protective Turiff' - 'A United States Bank, and 'A Land Bill,' were prominent among their

It were idle for me to attempt a full description of this great assemblage. Imposing as was the spectacle, with the different artisans and mechanics at work at their professions as they passed along-it was evident that display was not the motive which prompted their attendance; but that they were determined to right the wrongs of their Country, and exhibit to the world their esteem for the men who have always been true to their interests. They had met to welcome with one voice the patriot of Ashland, HENRY CLAY; and a proud day it must have been for him.

Mr. CLAY was met by the different delegations some distance out of town, on the Lebanon turnpike, when, accompanied by Gov. Corwin, he proceeded at the head of the Procession through the principal streets of the city. Arriving at the corner of Jefferson and Third-streets, he, Gov. Corwin and Hon. T. Ewing, mounted a stand to review the whole line as it passed. On his arrival there a band of juvenile singers, under the direction of Mr. Sharpe, greeted him with songs in their best style. The main body of the procession having passed, Mr. CLAY was escorted by the Military to his quarters. After an interval of an hour, or upwards, (during part of which time "Old Stone Hammer," (Gov. Metcalf) from Kestucky, addressed the crowd in frost of the National Hotel.) part of the living mass wended its way to the speakers' stand. Here, those who could endure the pressure of this immense crowd, and could get near enough, were entertained by several speakers before Mr. Clay arrived. Mr. Ewing announced to the Convention the names proposed for officers, having previously made a few remarks, expressing his gratification and astonishment to see such an immense "sea of heads." Ex-Gov. Morrow was selected President of the meeting, assisted by Ex-Gov. VANCE and TRIM-BLE, Hon. J. BURNETT, JOHN JOHNSON of Piqua, and others not recollected. Hon, J. J. CRITTENden, and Mr. ANDREWS, M. C., from Kentucky, (the same who saved the late Tariff bill,) also addressed the assemblage previous to Mr. Clay's arrival at the stand. In the course of Mr. Crittenden's remarks he challenged Ohio to beat Kentucky in 1844-pledging as good a Barbecue to Ohio us this one that they won, if Ohio's majority

or Clay exceeded that given him by Kentucky.

Mr. Clay at length made his appearance, which was hailed with enthusiastic cheers from the crowd. Mr. R. C. Schenck of Dayton, now read resolutions nominating HENRY CLAY for President, and JOHN DAVIS of Massachusetts for Vice President of these United States; offering also, as a guaranty that Ohio would vote for them in '44, the reelection of Thomas Corwin Governor in October next. Mr. Clay responded at length, waiting his own time (if I understood rightly) to commit himself as a candidate-contrasting cloquently the principles of the two parties which have divided, and still divide the American People. To myself, as it was to nearly all the crowd, this first opportunity to see and hear him was highly gratifying; and there we stood ammed together on all sides, the perspiration pouring off our brows like rain, eager to catch every word. But all could not be thus gratified --though their robust frames and backhful constitutions would have permitted it. No speaker, not even HENRY CLAY, (and his lungs appear yet strong,) can make himself heard all over such that the preparations surpass all former years. a crowd. Many, despairing to get an opportunity to hear him, left the City for their homes soon after his arrival with the procession.

When he had concluded, Mr. CRITTENDES again briefly addressed the Convention; after which Gov. CORWIN, in behalf of the Whigs of Ohio, accepted the challenge given by Mr. Crittenden in his riety; for vast numbers go to see the Fair and to former remarks.

The day was fine until about 4 o'cleck. We hen had a gentle shower, which soaked our clay omewhat-but which was a greater relief than an

The Election in Maryland. Correspondence of the Tribune. Baltimore, Oct. 4, 1542.

The Election takes place in Maryland to-morow for members of the House of Delegates, and seven Senators, one for each of the counties of Charles, Anne Arundel, Montgomery, Prince George's, Calvert, Caroline and Somerset. Of the seven Senators who go out, six are Whigs.

The centest generally throughout the State is not an animated one, and only in the county of Frederick is there any very strong effort made by the Whigs. I regret to know this, and to say hat we are also in great danger from divisions in our ranks in the counties of Montgomery, Charles, Caroline and Somerset. We ought to elect the Senators in these counties easily, and if the party were united would do so. In Montgomery and Charles there are independent Whigs running rainst the nominated ticket for Senator; in Caroline there is an independent Whig running for the House of Delegates; and in Somerset there is contention among themselves, growing out of ersonal matters between Whigs.

Yet with all these divisions, we hope to carry he State, but, as you may judge from the tone in which I write, our confidence is not over strong .bar confidence rests also upon known divisions in he ranks of the Loco-Focos, and especially in the ounty of Frederick, where several of the strongst men of the party are now open and decided gainst them. In Allegany, Washington and Han ord there are also divisious, and especially in Washington, where there is a full ticket of "Re oudiators" running.

The following tables will furnish you with the estimates of both parties, and at the same time show you the number and apportionment of the 11 ... of Dolocates under the new census:

This is close work you will say, but I shall be atisfied if we are able to render as good an account on Thursday morning, by which time, if I am able to get a letter on to you, I shall send you the returns from a good portion of the State. You see we give up the election here, and yet we may beat them; but we have only a faint hope of it.

From the Columbus (O.) Journal.

The Grent Dayton Convention. Having just returned from Dayton, we have only ime to say, before going to press, that language i nadequate to portray the sublime spectacle which was witnessed in that city on Thursday, Sept. 29, a speciacle far surpassing the most sauguine exsectations, and as far surpassing any thing that listinguished the excited canvass for the Presidency of 1840. As to the numbers present, the most candid, moderate and competent judges unite in placing it, incredible as it may appear, in the vicinity of a Hundred Thousand persons!

The Convention in the afternoon, was addresed or Mr. CLAY, in his most eloquent and impres ive manner, for the space of about an hour and a quarter. Mr. C. confined himself exclusively to pics of national concernment, and as far as heard by us, to the subjects of the Currency, the Protection of American Industry, and the adverse sys tems of policy pursued by the opponents of the

Whig party. Mr. Andrews, member of Congress, spoke a short time, and Mr. CRITTENDEN at greater length-the latter on the question of high and low wages, and

be demoralizing tendencies of the latter. Gov. Corwin spoke about fifteen minutes, when furious shower of rain-which has become an auspicious omen to the Whig party-broke in upon the further proceeding of the grand body of the

Convention.

Although vast numbers, perhaps fifty thousand of the people, left the city towards the close of the day, yet the town was filled with the vast fragments remaining, and during the evening, thousands upon thousands were listening to the animated harangues of different eloquent speakers, at three several places of meeting. When we left at 8 clock, Mr. Ewing was addressing an immense multitude which thronged the main street as far in each direction as his strong voice could

be made to extend. Never were the People in Western Ohio burning with such inextinguishable ardor and enthusiasm. We shall make a clean sweep west of the Scioto-not a wreck or relic will remain!

WILLIAM B. MACLAY has been nominated as the Loco-Foco candidate for Congress from the District composed of the Sixth, Seventh, Tenth and Thirteenth Wards, (the last being the one that John A. Lott wanted so badly to help his partner Murphy into a seat in Congress.) As this is the strongest Loco-Foco District in the city, Mr. Maclay's tortuous services in running on the Tammany Hall, Carroll Hall, and Public School Society tickets all at once, and then carrying through a bill which answered the purposes of Tammany alone, bid fair to be liberally and promptly remu-

who has leisure, should devote at least a good

part of one day to this great National Jubilce.

Mr. Maclay is a young man of fair talents and large expectations. He makes the capital mistake of regarding party success and party favor not as means but as an end, and acting accordingly-a mistake which he will live to discover, but not now in the first flush of a prosperous career .-With but superficial attainments in politics, whether as to principles or facts, he has managed to attain a prominent position for one of his years nurtured in affluence and exemption from labor, he is in good repute as a Ruslical and lover of the dear People; himself by no means a slave of party prejudices, he is capable of werking and profiting by those the most groundless and unworthy. We once heard him desecrate a Fourth of July by fuly half an hour's declamation, of which the whole staple was this-the Whigs are the old Federalists, the Federalists were the Tories and Cowboys o the Revolution, and have done all manner naughty things-ergo, don't inquire which party are now advocates of the measures most conducive to the Nation's prosperity; don't scrutinize the preensions or character of the Loco-Focos, but it blind' for those whose forefathers were on the right side, according to my story. There was no instruction, no enlarged or liberal views, no progress. It was an attempt to shut out the whole wide horizon of public policy and public duty by a leaden fail of prejudice and hatred. And yet such veriest east wind, which one would rationally suppose no ass could grow fat on, was vehemently dispensed by William B. Maclay, and greedily devoured by that large portion of his audience whose education had been deplorably neglected. We turned away 'more in sorrow than in anger' that the time of intellectual beings should be so wasted-and their attention so grossly abused,-Yet such is Wm. B. Maclay, a Representative (in prospect) of this great Emporium in the Legislature of the Union!

IF HENRY C. MURPHY, present Mayor of Brooklyn, is the Loco-Foco candidate for Member of Congress from the Second District, (Kings and Richmond.) He is a clever young lawyer. His law-partner, Mr. Lott, 'goes in' for Senator, and he for Congress, so as to divide things round as equally as possible. His term as Mayor will expire before he gets into Congress. The 'Working Men' of Brooklyn who have made such brave resolutions as to what they ought to have, have come out at the little end of the horn.' Of course they will have an Assembly bone thrown them.

B Hon. PLINY MERRICK, a recent convert from the Whig party, and formerly a leading Anti-Mason, has been nominated for Congress by the Loco Focosof Worcester District, Mass. He is an able man, but cannot beat CHARLES Henson. By the way, the Loco-Focos are always deciying the Whigs for taking up recent converts for office, but no party pursue this policy more steadily than

Discharge in 24 hours 24,000,000 gallons; width of the Aqueduct tube 7 feet 5 inches; depth 6 feet 6 inches; descent per mile 134 inches. It is a very appropriate and tasteful device.

IMPORTANT FROM TEXAS .- New Orleans papers of the 27th ult., confirm the intelligence contained in the extract of a letter from New Orleans we published yesterday. San Antonio has been taken by the Mexicans. The following from the Galveston Times gives all the particulars of the event we have received :-

San Antonio was completely surprised, on the 11th instant, by thirteen hundred Mexicans, under General Wall. Fifty-three of the principal citizens taken. The Proclamation of the President headed "The Enemy Again," orders the murching forthwith of the Militia of Brazoria, Austin, Fort Bend, Colorado, Victoria, Gonzales, Jackson and Matagorda counties against San Antonio; and the counties of the upper Brazos and Colorado to march to Austin, and the citizens of the other ounties to hold themselves in instant readiness.

When San Antonio was taken, the Circuit Court was in session, and the Judge and officers of Court were made prisoners.

The storm at Galveston was terribly destructive. The equinoctial gale of the 13th, which swept along the coast, had filled the bay to overflowing; and by a sudden change and the great violence of the wind the streets of the city were submerged. Many families were compelled to fly from their houses at the dead of night-but no. lives were lost. A new large Episcopal Church was laid in ruins and a great number of private dwellings were seriously injured. The loss is estimated at \$50,000.

Four Cherokees were killed a few days since on Little River, by a party of settlers in that neighborhood. The Indians had stolen horses, and were pursued and overtaken, and all killed and horses recovered. Five persons, when within three miles of Austin, on Sunday afternoon, were attacked by a party of about 15 Indians. Two of the five, Capt. Piron, and a Mr. Donovan, were the five, Capt. Piron, and a Mr. Donovan, were the five, Capt. Piron, and a Mr. Donovan, were the five of the killed.

Several of the citizens immediately repaired to the spot and brought in the bodies, which were buried on Monday Morning. A party of four Indians, who recently stole some horses from Milam, were pursued and overtaken by five citizens. who knocked two of them in the head with the but ends of their guns, and despatched two more ome way or other. Don't fail to read the following Certiicate.-Gentlemen: I am a machinist by trade, and the luties of my business require that I should at times exert nyself to such an extent that the system becomes entirely relaxed, and the body so overcome with heat, that it i with great difficulty I can avoid contracting severe coughs and colds. I contracted a cold from this cause about two mouths ago. I subsequently fell into the midst of some of my machinery, which seriously injured my breast and roduced a severe backing cough, and was, as I considred, fast approaching an untimely grave. I was attended by two physicians, who considered my case hopeless. I wever determined, as a last resort, to try some of your Clarified Essence of Horebound Candy, and after using mall quantity, I found almost immediate relief, and an ow entirely restored to health. My physician also attra butes the cause of my recovery to the use of your Hore ound Candy. Yours, truly, J. P. MATTHEWS, No. 1 Orchard-st.
